SIR:

This is in response to the Notice to Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/or Amino Acid Sequence Disclosures (hereinafter, the "Notice"), dated August 23, 2002. The Notice states that the diskette on which the Sequence Listing was previously submitted was damaged in transit.

Applicants enclose herewith a substitute Sequence Listing, in computer readable form and hard copy. Please note that, in an abundance of caution, the enclosed 1.4 Mb IBM formatted diskette is supplemented by an ISO 0660 formatted CDROM containing an identical duplicate Sequence Listing as is found on the enclosed diskette. The Patent and Trademark Office is respectfully asked to employ the CDROM if that survives any possible damage to the diskette. As required, a copy of the Notice is also enclosed.
